Release notes for the **2.8.2** **Hotfix PWD** release of the EIOPA **Solvency II** DPM and XBRL taxonomy

I Introduction

According to the [EIOPA Taxonomy Roadmap](#), the EIOPA Solvency II DPM and the XBRL taxonomy package 2.8.2 hotfix PWD release are to be optionally used from Q4/Annual 2025 reference date, until a new version is announced.

On the basis of the feedback received, EIOPA decided to release a separate mini release (2.8.2) aimed to address not only usual hotfix scope but also introduce limited updates to EIOPA reporting templates. In addition, ECB add-on was also updated. Finally, it was decided to make minor changes to the Annotated Templates layout. These changes are listed in section V. DPM.

This optional hotfix is intended to support reporting by undertakings for which the NACE Rev. 2.0 classification is not available, and who therefore need to report NACE Rev. 2.1 classifications, as updated by [Eurostat](#). This solution follows Public Q&A number 2931 and addresses the following cases:

- When NACE Rev. 2.0 is available for all reporting lines, it must continue to be reported in the same column as before. **No changes or use of this taxonomy hotfix are required for these undertakings.**
- When NACE 2.0 is not available for some or all lines, undertakings shall report NACE 2.0 for the lines where it is available, and NACE 2.1 for the lines where it is not. Optionally, undertakings may report both NACE 2.0 and 2.1 codes for all or some lines. **In all these cases, undertakings will need to apply this hotfix to access the new NACE 2.1 columns and report as detailed in the Annex 1 of this document.**

From a technical perspective, the xBRL instance remains backwards compatible, maintaining the same schemas and entry points as the current version (i.e. this is not a corrective release). The update introduces only new columns, metrics, and category hierarchies for NACE 2.1, added as new items in the xBRL dictionaries and update the NACE 2.0 related validations. All National Competent Authorities (NCAs) have to update their systems to support this release, enabling undertakings that have to apply the optional hotfix to report using the NACE Rev. 2.1 classification.

II Underlying regulations

The DPM and taxonomy are based on the following materials:

- Commission Implementing Regulation (EU) 2023/894 of 4 April 2023 laying down implementing technical standards for the application of Directive 2009/138/EC of the European Parliament and the Council with regard to the templates for the submission by insurance and reinsurance undertakings to their supervisory authorities of information necessary for their supervision and repealing Implementing Regulation (EU) 2015/2450 ([ITS on Reporting](#));
- Commission Implementing Regulation (EU) 2023/895 of 4 April 2023 laying down implementing technical standards for the application of Directive 2009/138/EC of the European Parliament and the Council with regard to the procedures, formats and templates for the disclosure by insurance and reinsurance undertakings of their

report on their solvency and financial condition and repealing Implementing Regulation (EU) 2015/2452 ([ITS on Disclosure](#))¹;

- Commission Implementing Regulation (EU) 2015/462 of 19 March 2015 laying down implementing technical standards with regard to the procedures for supervisory approval to establish special purpose vehicles, for the cooperation and exchange of information between supervisory authorities regarding special purpose vehicles as well as to set out formats and templates for information to be reported by special purpose vehicles in accordance with Directive 2009/138/EC ([ITS on Special Purpose Vehicles](#));
- Explanatory notes on reporting templates – Variation Analysis templates ([Explanatory notes](#));
- Guidelines on Financial Stability Reporting ([Guidelines and annexes](#));
- Guidelines on Third Country Branches ([Guidelines and annexes](#));
- Unofficial reporting [templates](#) including ECB add-ons, [instructions](#) and [accompanying notes to consultation](#) for ECB add-ons ([ECB add-ons](#)).

Integrated PEPP prudential reporting:

- Regulation (EU) 2019/1238 of the European Parliament and of the Council of 20 June 2019 on a pan-European Personal Pension Product (PEPP) ([Regulation](#));
- Commission Delegated Regulation (EU) 2021/473 of 18 December 2020 supplementing Regulation (EU) 2019/1238 of the European Parliament and of the Council with regard to regulatory technical standards specifying the requirements on information documents, on the costs and fees included in the cost cap and on risk-mitigation techniques for the pan-European Personal Pension Product ([Regulatory Technical Standard](#));
- Commission Implementing Regulation (EU) 2021/897 of 4 March 2021 laying down implementing technical standards for the application of Regulation (EU) 2019/1238 of the European Parliament and of the Council with regard to the format of supervisory reporting to the competent authorities and the cooperation and exchange of information between competent authorities and with the European Insurance and Occupational Pensions Authority ([Implementing Technical Standard](#));
- Technical Advice on delegated acts supplementing Regulation (EU) 2019/1238 (the PEPP Regulation) by specifying additional information regarding supervisory reporting ([Technical advice on supervisory reporting](#));
- Technical Advice on delegated acts to supplement Regulation (EU) 2019/1238 (PEPP Regulation) with regard to criteria and factors to be applied by EIOPA in relation to EIOPA's product intervention powers ([Technical advice on criteria for EIOPA's product intervention powers](#));
- Commission Delegated Regulation (EU) 2023/137 of 10 October 2022 amending Regulation (EC) No 1893/2006 of the European Parliament and of the Council establishing the statistical classification of economic activities NACE Revision 2 ([Commission Delegated Regulation 2023/137](#)).

¹ The Public Disclosure Templates are included in the Taxonomy only as an option for the undertakings to facilitate preparation of reports. However, please note that there are no changes in the Regulations for the publication of this information with regard to the format, and currently there is no intention to collect or publish this data in XBRL.

Technical entry point ⁴	tep	.23	206	0

EIOPA would like to draw attention to the removal of the Annual Financial Stability entry points (.10, .12 and .14) in 2.8.0 release.

⁴ The Technical entry point aims to provide maximum flexibility in data transmission, while not addressing any specific business area under discussion. NCAs may request from undertaking/s the use of this entry point, however EIOPA currently does not plan to use it.

V DPM

The 2.8.2 Hotfix is an optional release providing the possibility to report NACE 2.1 classification in the following ordinates:

- S.06.02.01.02, C0235;
- S.06.02.04.02, C0235;
- S.06.02.07.02, C0235;
- SE.06.02.16.02, C0235;
- SE.06.02.18.02, C0235;
- S.11.01.01.02, C0195;
- S.11.01.04.02, C0195;
- S.37.01.04.01, C0105;
- S.37.02.04.02, C0055.

In addition, the key column for S.37.02.04.02 was changed from mandatory to optional. This was necessary to allow one of the NACE code revisions to be reported. However, EIOPA would like to stress that S.37.02.04.02, despite being modelled with two optional keys, still requires NACE reporting, which is checked at rule level.

V.1 Taxonomy

There are no significant changes in the XBRL taxonomy structure. Especially the folder structure did not change as it is defined by the Eurofiling architecture.

For an Solvency II XBRL Taxonomy description, please see [EIOPA XBRL Taxonomy Documentation](#).

V.2 Availability of files

Taxonomy files are published as a compressed Taxonomy Package⁵ for local use: [EIOPA Solvency II XBRL Taxonomy 2.8.2 Hotfix PWD](#). The package includes only EIOPA Solvency II 2.8.2 Hotfix PWD XBRL Taxonomy files. Following packages need to be loaded for local use:

XBRL International specification files⁶ (if not embedded in the software solution),

Eurofiling files⁷.

Additional package containing these files is published here: [EIOPA SolvencyII XBRL Taxonomy 2.8.2 Hotfix PWD with external files](#). These files

<https://taxonomies.xbrl.org/taxonomy/65>

shall be up to date at the moment of publication of the 2.8.2 taxonomy and will not be maintained for updates.

V.3 Sample XBRL instance documents

The package contains sample XBRL instance documents for testing purposes. In the [EIOPA SolvencyII XBRL Instance documents 2.8.2 Hotfix PWD](#), there are instance examples for each entry point, one contains random data for every table cell, the other has numeric values set to "zeros". EIOPA has updated the mechanism of creating such sample files, so that both groups of reports refer only to the available for reporting options within the enumerations.

V.4 Known Issues

EIOPA is aware of some differences between the ITS and the XBRL/DPM taxonomy. While the nature of most of these differences is minor, the process of accepting the instructions required them to be frozen in advance and makes it impossible to make changes at a later stage. In order to make participants aware of these cases, EIOPA decided to list the known inaccuracies of the model using the List of Known Issues mechanism.

VI Database

Database structure mostly follows the 2.8.0 release although implements also the changes introduced to the Pension Funds 2.9.0 Hotfix PWD model.

In addition, EIOPA provided a unified database containing Solvency II, Pension Funds, PEPP PR and FICOD models. Due to differences in the publication dates of these frameworks, it was necessary to manually combine the dictionaries. The result is a model based on a dictionary that does not reflect any particular version. Furthermore, as a result of the merger, an update to any part of the dictionary referenced by more than one model will be available to all frameworks. Therefore, it should be emphasised that the unified database should not be considered as a leading but as a supporting material.

Detailed documentation can be found within under following link as well as within the DPM database documentation inside the .zip folder of the database [Solvency II DPM database](#).

VII Validations

Both the validations and the list of identical data points were included in this release. The list of duplicated datapoints was slightly amended to provide more information, including the list of entry points in which particular filed can be found. Solvency II 2.8.2 release introduced a significant number of new taxonomy assertions. The reason for this was to reintroduce the TV0 checks, as well as facilitate the cross-border templates reporting. The second group of changes is made up of new variants of existing rules, covering ECB add-on entry points.

2.8.2 release include also further harmonisation of error message labels, ensuring consistent language for Warning and Error level rules.

In addition, it was decided to further improve validations for the Direct URL to the webpage where the Solvency and Financial Condition Report correctness. Due to the fact that some entities post their reports on dedicated pages, it was decided to amend the regular expression to handle such scenario.

In 2.8.2 Hotfix PWD release, amendments have been made to rules BV792, BV956, BV1516 and BV1517 to reflect the newly defined NACE 2.1 reporting fields. In addition, three new rules have been introduced:

- BV2161 ensuring that one of the NACE revisions is provided for table S.37.02.04.02;
- BV2162 with all its variants, prohibiting the use of NACE 2.1 before the reference date 2025/12/31 in S.06.02;
- BV2163 with all its variants, prohibiting the use of NACE 2.1 classification before the reference date 2025/12/31 in S.11.01
- BV2164 checking for NACE 2.1 not to be reported in S.37.02.04.02 before the reference date 2025/12/31.

VIII notes

- EIOPA would like to emphasize that it does not guarantee the stability of the layout of excel files provided as part of the package materials. However, EIOPA would like to assure that the changes should not limit nor constrain any information on the modelling or validations provided so far.
- EIOPA Solvency II 2.8.2 optional Hotfix shares the DPM Documentation, XBRL Taxonomy Documentation, XBRL Filing rules, DPM Database documentation, and Technical instructions for EIOPA and ECB Pension Funds with integrated PEPP Prudential reporting using the XBRL taxonomy with the final release.

IX Feedback for Taxonomy

EIOPA encourages stakeholders to report issues to the functional mailboxes:

- Questions related with the use of items of the reporting templates, the definition of items, etc. should be addressed with the [QA tool](#)
- In case of question regarding DPM and XBRL technical matters please contact xbrl@eiopa.europa.eu identifying the Taxonomy Release of the DPM-XBRL implementation issue.
- Question regarding the business validations and technical validations should be addressed to validations@eiopa.europa.eu

Please note that feedback sent to xbrl@eiopa.europa.eu is subject to the conditions below:

- Subject to the agreement of the reporting stakeholder, EIOPA will publish per issue found the name of the stakeholder (name of company or individual person) - from which EIOPA first received the issue in its functional mailbox. The date of receipt at EIOPA will also be made publicly available. Note that in general for the feedback related with validations the name of the reporting stakeholder is not made publicly available.
- EIOPA reserves all the rights to decide which issues are to be listed in the “public list of known issues”.
- Note that one email with feedback may serve to identify more than one issue, and opposite, one issue may be identified complementing feedback from more than one email. EIOPA reserves all the rights to decide how the issues are registered and to assign one issue to one or more stakeholders.
- Stakeholders having contractual relations with EIOPA, which allow them to have any advantageous access to information related with taxonomy, are not allowed to participate.
- By submitting feedback stakeholders acknowledge and consent that this may be used by EIOPA to improve Taxonomy. Particularly EIOPA recalls that all feedback is subject to the EIOPA [Taxonomy licence](#).
- EIOPA reserves all the rights to cancel, modify or add conditions to this feedback process, list of known issues publication and acknowledgments at any point of time and without justification.
- EIOPA ensures that any processing of personal data is performed in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data.
